

1 FALCOGAMMA, SINGLE SIDED	
Part code	Description
77.759.050	FalcoGamma-Hi single sided, starter with 4 mm clear polycarbonate roof, length 4000mm
77.769.050	FalcoGamma-Hi single sided, add-on with 4 mm clear polycarbonate roof, length 4000mm
77.709.050	FalcoGamma-Lo single sided, starter with 4 mm clear polycarbonate roof, length 4000mm
77.719.050	FalcoGamma-Lo single sided, add-on with 4 mm clear polycarbonate roof, length 4000mm

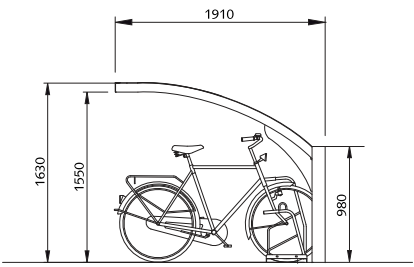

FALCOGAMMA (LO AND HI)

The FalcoGamma is a new canopy product designed with clean lines and functionality in mind. The design is very flexible with both; single and double sided and 'Hi' (photo 1A) and 'Lo' (photo 1B) versions available to meet a variety of uses.

The design uses 60 mm box section steel as opposed to the round tube of the Harmony.

With robust polycarbonate roof sheets and a central gutter integral to the design, the FalcoGamma is ideally suited to public areas where a robust product is required.

single sided FalcoGamma-Lo

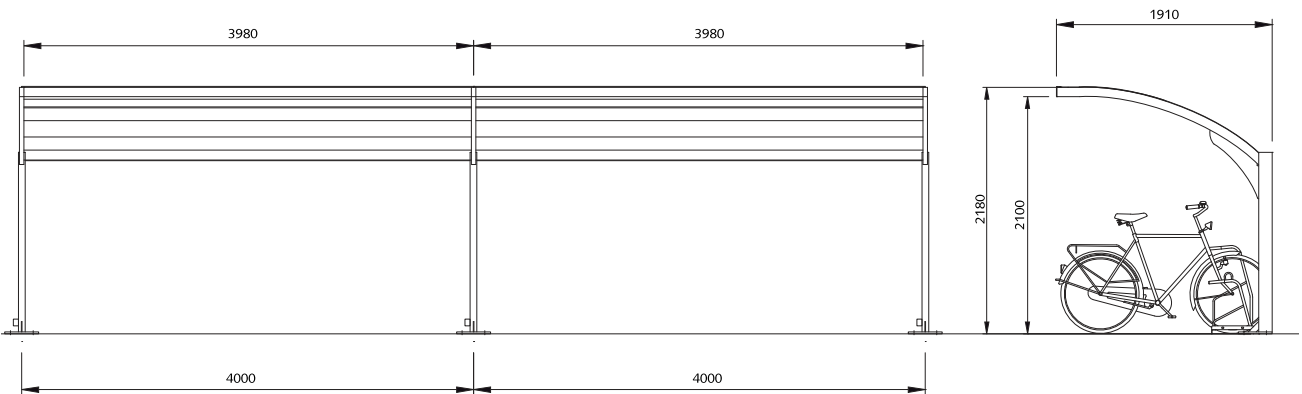

1 FALCOGAMMA, SINGLE SIDED

The single sided canopy creates a 1.9 metre span ideal for cycle parking or as a walkway canopy.

Manufactured from robust steel and hot dip galvanised to BS EN ISO 1461, the canopy is both utilitarian and provides a very low cost of ownership.

The Gamma-Hi gives free head height of 2,100mm and the Gamma-Lo a free height of 1,550mm – ideal for cycle parking.

single sided FalcoGamma-Hi, with add on section

2 FALCOGAMMA, DOUBLE SIDED

The double sided FalcoGamma creates a majestic tree design when viewed in elevation. Tip to tip, the overall span of the canopy is 4,000mm with free head height of 2,100mm at the front.

The arched arms cause rainwater to run into the central integral gutter and the waste water is discharged at ground level via internal drainage.

Again both Hi (2A) and Lo (2B) versions are available for maximum flexibility and where required safety glass side panels can be fitted to create an enclosed space.

Photo (2C) shows the FalcoGamma adapted so that it just covers cycle saddles - reducing cost.

Like all Falco products, the FalcoGamma can be polyester powder coated in any of the standard colours of the RAL register, and special colours are available on request.

2 FALCOGAMMA, DOUBLE SIDED

Part code	Description
77.859.050	FalcoGamma-Hi double sided, starter with 4 mm clear polycarbonate roof, length 4000mm
77.869.050	FalcoGamma-Hi double sided, add-on with 4 mm clear polycarbonate roof, length 4000mm
77.959.050	FalcoGamma-Lo double sided, starter with 4 mm clear polycarbonate roof, length 4000mm
77.969.050	FalcoGamma-Lo double sided, add-on with 4 mm clear polycarbonate roof, length 4000mm
77.809.050	FalcoGamma-Lo double sided saddle, starter with 4 mm clear polycarbonate, length 4000mm
77.819.050	FalcoGamma-Lo double sided saddle, add on with 4 mm clear polycarbonate, length 4000mm
